

A Broadway Murderer. The most widely feared murderer in the town of Western Alley, makes his name THE Murderer. After years of hiding from the police and outsmarting them, The Murderer finds himself tired of the game. While chasing his newest victim he lands center stage at Glass Theatre Group during an experimental piece he changes completely for the better. He finds love for the stage and for the artists surrounding him but, alas, the stage and the murderer could never be, because sooner rather than later a rival appears and threatens the livelihoods of all of The Murderers new cast and crew. The Murderer has no choice but to return to his old ways and end this once and for all, sealing his victory with tools and tricks from the artists he's come to know and love.
